Reflection and Feedback Guide

Reflection and feedback are useful both to improve relationships within the group and to improve the effectiveness of the learning experiences.

This is an opportunity to the tutor, and each member of the group, to reflect on your own performance in these sessions and make comments aimed at improving the helpfulness of the sessions to your learning. Remember that the purpose of these tutorials is to facilitate your learning in the following areas:

1. Develop critical thinking and problem-solving skills;
2. Acquire skills and acceptance of self-directed learning (responsibility for learning);
3. Acquire skills of identifying learning issues and resources;
4. Develop group communication skills.
5. Create a collaborative rather than a competitive atmosphere.
